MR. PHELPS'S ARGUMENT.

BEHRING SEA TRIBUNAL.

HE CONTENDS THAT THE ASSENT OF NATIONS MAY BE INFERRED FROM RIGHT AND JUSTICE-PROPERTY RIGHTS IN

MARINE ANIMALS. Paris, June 23.-E. J. Phelps, of counsel for the United States, to-day continued his closing argument before the Behring Sea Tribunal of Arbitration. Mr. Phelps is displaying in his speech remarkable eloquence and great aptness in choosing illustrations. In dis-cussing the definition of international law which sir Charles Russell has given the tribunal, Mr. Phelps neld that the assent of Nations to a new question of international law may be inferred when, as here, the preposition accords with the law as established by the civilized world or where it is obviously just and right. The interest of the United States in the seals in her territory and in the industry founded on the seals constituted, he said, a property right which was entitled to the protection of municipal and inter-

national law.

Mr. Phelps developed at length his views of the rights of property. According to municipal law, he said, all useful wild animals that have subjected to human control themselves or have been subjected to human control land to which they have a constant animum an industry become to a certain extent the property of the citizens of that land. Under the provisions of international law, also, marine animals, becoming the basis of an industry in maritime territory, must be regarded as a species of property belonging to the persons controlling this territory. Such property, the counsel said, had hitherto been held sacred by general consent of the Nations of the civilized world.

DE FREYCINET AND FLOQUET CLEARED. REPORT OF THE PANAMA COMMITTEE TO THE CHAMBER OF DEPUTIES-THE "COCARDE'S"

STORY IN THE COMMONS. Paris, June 23.-Ernest Valle presented in th Chamber of Deputies to-day the report of the Com-nittee of Inquiry into the Panama scandals. The report covers 300 pages and is divided into seven Among the captions under which the mos important matter is given are those concerning the tions of the company's lobbylsts to the Deputies, the Canal Company's general history, the loans contracted and the operations of the guarantee syndi-cates. Legal opinions as to the company's opera-tions are quoted at length. The report exculpates from all blame M. de Freycinet, ex-Minister of War, and M. Floquet, ex-President of the Chamber. It pronounces false in every particular the story that pronounces false in the parama money.

don, June 23 .- The matter of the docume that the Paris Boulangist organ, the "Cocarde," alleged had been stolen from the British Embassy in Paris, came up in the House of Commons to-day on a question asked by Henry Labouchere (Radical), member for Northampton, who desired to be informed by the Government it there was any foundation for the story published by the "Cocarde."

Timothy Healy (Anti-Parnellite), member for North Louth, asked in a satirical tone if forged documents had been supplied to M. Millevoye, who yesterday in the French Chamber caused an uproar by reading a portion of the alleged stolen documents from the office of "The London Times"-a sly allusion to the Pigott forgeries that were exposed by the Parnell

Mr. Healy's question caused much laughter among the Irish members, and cries of "Oh" from others. Sir Edward Grey, Parliamentary Secretary of the Foreign Office, answered that no documents had been stolen from the British Embassy. He added that the documents that M. Millevoye had read were gross forgeries, and that he did not know whence or by whom the forgeries and been supplied to the "Cocarde" or M. Millevoye.

RIOTING BY SOCIALISTS AT LUBECK. ANGERED AT THEIR DEFEAT IN THE REICHSTAG BY-ELECTION-TWICE REPULSED BY

THE POLICE. Berlin, June 23 .- The Socialists of Lubeck, incensed at the result of the second belief for member of the Reichstag, taken in that city yesterday, which re-sulted in the defent of Johann Schwartz, the Social Democratic candidate, by Herr Goertz, Radical Unione a demonstration last night that soon degenerated into a riot. The worst disorder was in Breitestrasse, where the Socialists, aided by a large number of loafers and wharf rats, wrecked several shop fronts with stones and clubs. The police charge

The police were out in force, and after a tussle with the roters succeeded in driving them from the vicin-ity of the City itall. The members of the mob then devoted their attention to the house occupied by the Liberal leaders, which they attacked with stones, doing ninch damage before the pelice could drive them off. Altogether 100 arrests of Socialists and their sup-

It is apparent that the Socialists are in many instances deeply angered at the non-success of their candidates on the first ballots, and are in a mood to make trouble. At Janer, a town of Prasslan silesia, where a by-election is necessary, political feeling is running high, and the Socialists are particularly embittered against their opponents. The Conservatives in the constituency held a meeting last night in support of their candidate, and much enthusiasm was displayed. When the meeting broke up and the Conservatives were leaving the hall they were set upon by a large mob of Socialists, and a desperate fight followed. Horr Strocke, the Conservative candidate, was badly treated by the mob. The pelice and troops made a united charge upon the Socialists and drove them off. Many of the rioters were arrested.

CLASS DAY AT HARVARD.

DESPITE UNPROPITIOUS WEATHER A LARGE ATTENDANCE FILLS SANDERS THEATRE.

Boston, June 23 .- The Harvard serior anathematized the weather when he looked forth from his window this morning and beheld the steady downpour of the rain which prevailed in the early hours. rain degenerated into a steady, dreary drizzle, and it was evident that a wet morning at least would attend the exercises of class day.

At 9 o'clock the seniors assembled in front of Hol-

worthy and took up a straggling murch, many carry-ing umbrellas, to Appleton Chapel, where religious services were conducted by the Rev. William Lawrence, Bishop-elect of Massachusetts. Immediately after the services the seniors hastened back to their rooms to finish arrangements to receive the numerous friends who would take refuge from the rain.

At 10:15 o'clock Sanders Theatre was opened to ticket-holders and, despite the weather, the part served for relatives and friends of the seniors was quickly filled. The entire floor and part of the balcony were reserved for the class men who, shortly before 11 o'clock, marched around the yard to the music of a band and into the theatre, where the exercises were opened with prayer by Dean Lawrence. The oration was delivered by Billings Learned Hand, of Albany, N. Y., one of the brightest men in his class. He is an editor of "The Harvard Advocate." belongs to several of the leading college societies and has been a steady candidate for his class eleven and crew. The oration was of marked literary excellence and was clearly and forcibly given. The poem was by William Vaughan Story Moody, of Lafayette, Ind. THE FORD S THEATRE DISASTER.

EXAMINATION OF WITNESTES BY THE GRAND JURY-THE COURT OF INQUIRY DISSOLVED.

Washington, June 23.-The examination of witnesses by the Grand Jury in the matter of the disaster at Ford's Theatre building was continued to-day. At the request of District Attorney Edrney, the Secretary of War directed that the plans and specifications of the repairs in progress at the time of the accident be furnished. District-Attorney Birney stated this afternoon that Secretary of War Lamont was giving him every assistance and that he would be able to present to the Grand Jury an even stronger case than that made before the coroner's jury.

The District-Attorney though that indictments would be ready for presentation in court not later than Friday next. The arraignment of the indicted persons would immediately follow. The earliest practicable date set for their trial would be some day early in

the military court appointed on the 10th instant to investigate the conduct in office of Colonel Ainsworth, chief of the Record and Pension Office of the War Department. Secretary Lamont in revoling the order "Since the foregoing court was ordered, the civil authorities of the District of Columbia, by a coroner and a legally chosen jury, have investigated the disaster at the Ford's Theatre building for the purpose of ascertaining the cause of the same and of fixing the responsibility therefor and the procedures under the civil law are still in progress. That there may be no interference by the military with the operation of the civil law in the case, and believing that the ends of justice and the interests of the military service will be best subserved by leaving the matter, at this time, to the determination of the civil authorities, free from any influence or complication that might ensue from a military inquiry, the order of June 10, 1893, is hereby revoked and the court dissolved.*

RAILROAD INTERESTS.

READING AFFAIRS IN DOUBT.

THE FUTURE OF THE COMPANY UNCERTAIN-LARGE PAYMENTS DUE ON JULY 1.

Philadelphia, June 23.-The future of the Reading Railroad Company occupied the attention of the inancial community to-day, but no information as to what course would be adopted could be obtained not made public.

The Reading will have to provide for \$1,500,000

interest on July 1, nearly \$000,000 of which is due to holders of the general mortgage bonds. On the same date its \$3,000,000 indebtedness to Speyer & Co. will fall due. The latter loan is secured by \$5,340,000 collateral trust bonds, \$1,000,000 third preference bonds and \$200,000 Philadelphia, Harrisburg and Pittsburg bonds. The failure to meet the obligation at maturity would result in the loss of these collaterals, but as they have depreciated greatly in value it is not unlikely that the Speyers will consent to some arrangement for the extension of the

The impression has been prevalent for some time that the company will be unable to meet the general mortgage interest, and it is possible that an ar-rangement will be made with Drexel & Co. to purchase the coupons, as was done recently when interest was due upon the consolidated mortgage bonds.

The rumor most frequently repeated to-day was in the race. that some of the preference income bondholders would apply to the courts for an injunction restraining the receivers from paying over to the Lehigh Valley Company the rental with which to pay the dividend July 15 upon the Lebigh Valley stock. due July 15 upon the Leligh Valley stock. The Reading officials, however, are authority for the statement that the money has already been paid to the trensurer of the Lehigh Valley, and Vice-President Garrett, of that company, said: "I have no knowledge that such a step is contemplated, and I know of no grounds for such action. The dividend has been declared, and I know of nothing to prevent the stockholders receiving it on July 15."

If the application to issue receivers' certificates is granted, the receivers will be enabled to tide over the present crisis, but if not, the property of the company will be placed in leopardy

THE FAT VANDERBILT DIVIDENDS. SEMI-ANNUAL STATEMENTS-LAKE SHORE'S FINE

The directors of the Vanderbilt Western roads yes erday declared the regular semi-annual dividends, being 3 per cent on the stock of the Lake Shore and Michigan Southern, 2 per cent on the Michigan Central and 1 1-4 per cent on Canada Southern. All the dividends are payable August 1. The Lake Shore financial statement for the half year ending June 30 is exceptionally favorable. It shows gross earnings of \$11,744,000, against \$10,678,656 in the correspond ing period of 1892, an increase over last year of \$1,965,344 or 9.98 per cent. The operating expense and faxes amounted to \$8,283,206, against \$7,417,690 in 1892, an increase of \$865,316, or 11,36 per cent. The net earnings were \$3,460,794, against \$3,260,766 in 1802, an increase of \$200,028, or 6.13 per cent. Deducting interest, rentals and dividend on guaranbed stock, amounting to \$1,650,000, there is left a balance of \$1,750,794, against \$1,580,766 last year. an increase of \$200,028. The balance is equal to \$3.60 per share of stock, against \$3.19 in 1892. a surplus of \$200,799, compared with \$90,771 same period of 1892. In the half-year of 1893 all betterments were charged to operating expenses and in addition \$750,000 was charged off against open accounts brought forward from 1892, representing expenditures made last year in anticipation of this maintained at the standard is proved by a percentage of operating expenses to earnings of 70.53 per cent this year, against 69.47 per cent in 1892.

The Michigan Central statement for the half-year shows gross earnings of \$7,550,000, against \$7,642,000 in the first half of 1802; operating expenses of \$5,785,009 (76.62 per cent), against 5.732,000 (75 per cent), and net earnings of \$1,755,000, against \$1,910,000 a year ago. Deducting interest, etc., of \$1,200,000, a surplus is left of \$505,000, divided as follows: To Michigan Central \$403,000 and to Canfollows: To Michigan Central \$403,000 and to Car-ada Southern \$102,000. Deducting \$374,764 for divi-dends leaves a balance for Michigan Central of \$22,230, compared with \$151,236 in 1892. Adding the proportion allotted to Canada Sauthern (\$102,000) to the balance from Income of previous years of \$176,032 gives a surplus of \$538,632; deducting \$187,500 for dividends leaves \$151,132 as the surplus earried over.

PLANNING FOR "ONE-FARE" TRAINS TO CHICAGO. The result of the formal vote of the trunk lines on the proposition to run thirty-hour excursion trains from New-York to Chleago, for one fare for the round trip, will probably be definitely known on Monday. There is little doubt that it will be favorable, as the New-York, Ontario and Western is said to have no desire to block the plans for popularizing travel to the World's Fair. As soon as the vote is announced the Truck Line Passenger Commission will announce the schedules for the trains. It is hoped to have them running by July 10. Taking it for granted that the excursion trains will be well patronized under the attractive rates of fare established, all the city, Democratic member of Congress from the VIIIth Pennsylvania District, died suddenly of heart disease of travellers. There will medically needed to the comfort this morning. He had been in page large and the suddenly of heart disease of travellers. There will medically trains on each day, to permit each of the eight trunk lines to have one train a week. A large patronage is expected from points all through the State, as well as from the city, and all the railroad companies will vie with each other in giving passengers on their trains the best of care and attention.

IMPROVEMENTS BY THE LONG ISLAND ROAD. The Long Island Railroad Company is laying tracks in the yards of the Manhattan Beach Division at the foot of Sixty-fifth-st., Bay Ridge, for the use of trains from Valley Stream, L. I., to that point. The route over the Manhattan Beach Division will be used chiefly for freight purposes. About \$50,000 has been spent at Bay Ridge in building new piers and a floating bridge to run the freight cars on ferry Some of the South Side passenger train will also be run to Bay Ridge instead of Long Island City. The Long Island road has just built a branch from Hempstead to Valley Stream, and will continue it to the Manhattan Beach read in Flatlands. The route from Hempstead to Bay Ridge is twenty miles long. The transfer on freight from Fay Ridge to Jersey City will be easier than from Long Island City.

TEAMS GOING WEST. CHANGES IN THE RACE FOR THE LEAGUE

Only two games were played in the League yesterday, only two games were played in the League resterday, yet the result makes several changes in the race for the pennant. Rusée pitched in his oid-time form at Philadelphia and the Giants won a rather easy victory from the League leaders. The result allows the Giants to the League leaders. The result allows the Giants to the Ealthmore for sixth place and Foston to the the Quaker City men for the lead. Cleveland won another game from Pittsburg and the pen force Objection in the Control Pittsburg, and the men from Ohio slip into fourth place

To-day's same will wind up the first series in the East and most of the teams will start for the West to-night. The Brooklyn team will start for Chicago to-morrow morning, and will not return to glastern Park until July 20. The Giants go direct from Philadelphia to-night, as they are scheduled at Cincinnati on Monday. The Brooklyn beam will play a few Sunday games in the West, but the The New-Yorkers are due at the Polo The records to date are as follows | Gran | Transport | Grant | G Clubs. Philad-lphia Boston

A CINCINNATI MIRACLE.

WHY MR. CHARLES B. NOBLE IS BEING COM GRATULATED.

A REMARKABLE CASE OF BEING COMPLETERS

CURED OF PARALYSIS AFTER NEARLY

THREE YEARS OF SUFFERING AND EMINENT PHYSICIANS HAD DE-CLARED THEIR BEST EF. FORTS BAFFLED.

Newspaper men as a rule place little credence in patent medicine stories and seldom bother to even read them This is not to be wondered at when it is taken into con sideration how often they are called upon by unscrupulous persons to fabricate and publish stories of remarkable cures and perhaps print a picture of the mythical man of woman supposed to have been cured. That all medicine advertisements are not more "fakes." and that all news. paper men are not equally prejudiced is proven by a story published in "The Cincinnati Times-Star" of a well-known new paper man whose life was saved by reading an advertisement. So remarkable and interesting is the story that it is here reproduced as published in "The Times Star." Mr. Charles B. Noble, the well-known litterateur, who

has been suffering for nearly three years with paralysis. that Mr. Noble's case appeals to every member of the Noble has spent the last three years in traveling from city to city seeking skilled physicians, to whom he has appealed in vain for relief. Knowing this, a reporter expressed surprise at the remarkable cure, but Mr. Noble after executing a jig to show that he was as sound as he looked, let the reporter into the secret of his cure.

"It was a hard time I had of it," said he, "but the last medicine we take is always the one that cures, and I have taken the last. I was paralyzed on March 9, 1890, while in the employ of the David Williams Pub lishing Company of New-York City as their traveling representative from Cincinnati. I found the traveling a great belp to me, both in a financial and a literary way, but suddenly stricken down as I was at Somerset, O., 150 miles from Cincinnati, I was incapacitated for both writing and money making. Luckily my literary productions had been remunerative, and I had a snug bank account laid up, but these three years have made a drain on it.

"I sought a score of physicians, going to the best specialists in Cincinnati, Chattanooga and Pittsburg. Twelve Cincinnati doctors pronounced my case incurs ble, but I would not give up, and after seeking in vais for relief in Pittaburg and Chattanooga, consulted the best medical talent in Chicago. Up to January 17, 1893. I had spent \$2,500 for doctors and medicine and was about to give up in despair when I got hold of Dr. Williams' Pink Pills for Palo People, through read ing the advertisements. "From the first week of using the remedy I made

steady improvement, and on April 12 I put up my case after using it thirty months. I certainly believe this medicine is all the proprietors claim for it, and that is will do all they say it will. I take pleasure in recommending it to all similarly afflicted. Like many who have tried medicine in vain. I was doubtful of its value at first, and only used it when I grow desperate. Now I can not praise it too highly. It has restored me to health and strength, and I feel grateful accordingly. Dr. Whittaker pronounced it a hopeless case of locomotor

"Yes, I know there are many who will fancy anythin, you say about my case is an advertisement, but if they want any correboration, let them address me at the Y. M. C. A. building, and I will cheerfully answer all inquiries if stamps are enclosed."

Pink Pills while advertised and handled by the drug trade as a proprietary article, are not considered a patent medicine in the sense that name implies. For many years previous to their general manufacture they were used as a prescription. At first their great restorative powers were not fully recognized and they were chiefly prescribed for impure blood and general weakness. Their remarkable success in such cases, and the fact that there was nothing in the formula that could do any harm, even if they did not do any good, led to their being tried in cases where the skill of the physician and the power of medicine had entirely failed. Their power of restoration seemed to border on the marvelous. They proved to be a never-failing specific for such diseases as locomotor ataxia, partial paralysis, St. Vi dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of La Grippe, pulpitation of the hears. pale and sallow complexions, and bil diseases of the blood such as scrofula, chronic erysipelas, etc.

They are also a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness. They build up the blood and restore the glow of health to pale and sallow cheeks. In case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature.

Pink Pills are sold in boxes (never in loose form, by the desen or hundred, and the public is cautioned against numerous imitations sold in this shape) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medieine Company, Schenectady, N. Y., or Brockville, Ont. The price at which these Pills are sold makes a course of treatment inexpensive as compared with other reme dies or medical treatment.

The contest for this prize has been the occasion of much interest on the part of architects and cotton and insurance men throughout the country.
